

Home Inventory

We know how important your personal belongings are to you. That's why it's important to create and maintain an accurate household inventory.

A household inventory will help ensure you have the right insurance coverage. And if you ever need to file a claim, all the information you need will be handy.

Just complete the following form, including the replacement cost and total each room. Then, combine the totals under household inventory record.

Helpful tips:

- **Keep the inventory in a safe place, such as with a family member or friend, in a safety deposit box or in the cloud.**
- **Keep a second copy in a home safe or with other important documents.**
- **Consider taking and storing photographs of high-value items.**
- **Update this inventory annually.**

These forms are also available on ERIE's website (erieinsurance.com/homeowners/homeowners-claims-checklist).

Talk to your local ERIE Agent to make sure you have the right coverage for your home, or request a quote at erieinsurance.com/homeinventory.

IMPORTANT: *If the amount of insurance protection you currently have on your contents is lower than the value shown, contact your ERIE Agent so your policy can be properly adjusted, to make sure your valuables are covered.
